

DD/S&T-1760-63

23 October 1963

MEMORANDUM FOR: Acting Comptroller

SUBJECT: Activation of Foreign Missile and
Space Analysis Center, DD/S&T

REFERENCE: Memorandum to DDCI from DCI dated
21 October 1963 re Above

1. By verbal authorization on 15 October 1963, and as subsequently confirmed by referenced memorandum, the DD/S&T has been directed to activate a new unit of organization. This new unit has been referred to in the DCI memorandum of 21 October 1963 as the "Foreign Missile and Space Analysis Center".

2. During the discussions of 15 October 1963 mentioned above, it was agreed by the DDCI and the DD/S&T that this new unit of organization would be authorized during the current Fiscal Year a minimum Table of Organization of [REDACTED] personnel and an operating budget of [REDACTED]. The DDCI acknowledged that the resources represented by these authorizations are not available within the current totals authorized for the DD/S&T and accordingly, will be made available to the DD/S&T. The DDCI indicated that the [REDACTED] would be made available to the DD/S&T from the Agency Deferred Fund.

3. While it is impossible as yet to predict firmly needed personnel and monetary allowances for FY 1965, the DDCI was made aware that for planning purposes a personnel allowance of [REDACTED] should be considered necessary for FY 1965. Inasmuch as the DD/S&T budget for FY 1965 has already been submitted to you, your advice is requested as to how best to proceed to include this requirement in our FY 1965 needs. The same lack of available resources to meet this need as exist in the current Fiscal Year is also applicable in FY 1965.
